

Commission

HORIZON 2020

Unlocking and demonstrating the potential of Seas and the Ocean

Sigi Gruber European Commission Marine Resources Unit Directorate General Research and Innovation

HORIZON 2020

Blue Growth Focus Area 2014-2015

Cross-cutting initiatives

European Commission

> Sustainable exploitation diversity of marine life

New offshore challenge

Ocean observation systems

Socio-economy/ contributing to int. cooperation

Unlocking the potential of Seas and Oceans

Strategic orientations 2016-17

European Commission

3 Unlocking the potential of seas and oceans

TRANSDISCIPLINARY **R&I:** Cross-cutting marine and maritime research

INNOVATION & DEMONSTRATION:

Deployment of technologies "from lab to market" & enable sustainable solutions

KNOWLEDGE: Tools and technologies to monitor and predict ocean and climate change

Demonstrating an Ocean of **Opportunities** **Innovation in** emerging BG activities

Healthy oceans for healthy people

European ocean observing, surveying and monitoring capability

Commission

Large-scale marine biomass integrated bio-refineries able to develop a range of value-added products

Сгор	Oil yield [gallons (acre) ⁻¹]
Corn	18
Cotton	35
Soybean	48
Mustard seed	61
Sunflower	102
Rapeseed	127
Jatropha	202
Oil palm	635
Algae	10,000

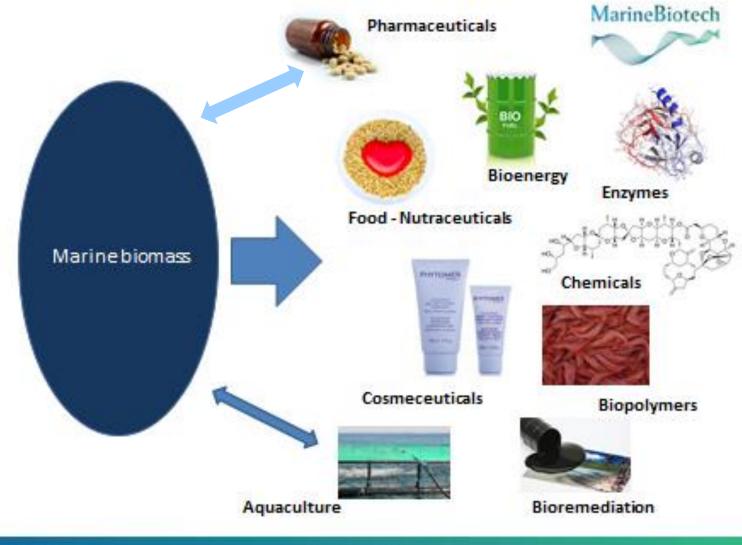

Large scale algae biorefinery

Economic opportunity

www.marineblotech.eu

5

Innovation in emerging Blue Growth activities

Multi-offshore platforms/spaces combining many differeant activities at sea (renewable energy, aquuaculture, fisheries, and related technologies

Complex land-sea interactions (green algae bloom, coastal erosion

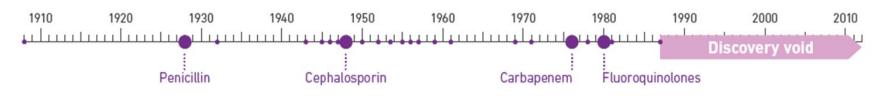

New medecines, healthy food, healthy diets

Over the last 30 years, no major new types of antibiotics have been developed

Blue green innovation for clean coasts and seas

Strenghtening the observing systems

HORIZON 2020

Thank you for your attention
