- **Transatlantic**
- **Short sea**
- **Inland**
- **Urban**
- **Recreational**
- **Advanced Maritime Operations**

Transatlantic - short sea

- STM Validation project – digitalisation of sea traffic management.
- Clean Shipping Index – incentives for environmentally friendly shipping
- More environmentally friendly fuels as well as fossilfree production of fuel
- Fossilfree agenda 2030 with commitments from the industry

Short sea – inland – urban

- Short sea shipping and inland.
Focus - Business models. Change in attitude needed.
- Urban shipping for goods and people, city development
- Battery fire safety onboard

Connected city – examples from the whole transport sector

Connected

Buses

Ferries

Waste

Construction

Distribution

Electric, Automated & Connected Goods Transport

Recreational

- Small scale projects looking at renewable fuels for mussel farmers
- Project on how diesel affects shellfish – co-existence of boating and farming.

Thank you for listening!
