

**SUPPORTING EFFECTIVE OCEAN GOVERNANCE**

*The role of Responsible Research & Innovation  
and Ocean Literacy*

**Before closing...**

March 20, 2019

On behalf of the MARINA & ResponSEABLE projects, with contributions from participants  
at the 2019 Ocean Dialogues

# Food for thoughts

The Ocean Dialogues delivered **two versions of the manifesto**: the “drawing” and the text versions

For the future, both research and policy, the challenge is to ensure that **“ocean literacy meets media literacy”**

**Keep the attention to the ocean**, making explicit the role of ocean in the earth system. The ocean **needs a voice to be heard**.

Let's put **our heads out of the ocean**, lets' **bring the ocean to the streets**.
